Editorial

By Alex G. Malloy with Robert J. Sodaro

The landscape of the comic book pricing market has grown a touch soft over the past 12 months. Still, before you sprint panic-stricken for your comic vaults to dispose of your favorite books before they lose their value—things aren't quite that bad. While third- and fourth-tier Golden Age titles have softened up, first-and second-tier Golden Age books are still holding their value.

Many Silver Age titles are treading water as well, with books on the lower end of the scale softening.

Silver Age Spider-Man titles are showing strong movement due to continued interest generated by the powerful showing of the films (including 2007's third outing which was released in three distinct flavors on DVD just prior to the year-end holiday shopping season). Also showing strong is Iron Man, due in part to the buzz concerning his imminent Hollywood coming-out party (due this Spring), but also to the very positive response to Marvel's release of *Ultimate Iron Man.*

As everyone knows, this Ultimate make-over was written by renowned science fiction novelist, Orson Scott Card, who has just finished putting a spit-shine on the second installment of Ultimate Iron Man's origin with *Ultimate Iron Man II.* Not only does the Golden Avenger grace our cover, we also managed to snag an interview with Mr. Card for this very issue. Seems that our own Features Editor, Robert Sodaro, has a past connection with Mr. Card from back in the mid-1980s when Bob was the managing editor and Mr. Card was a columnist for the Commodore 64 magazine entitled, *Ahoy!* Well, Mr. Card remembered Bob and consented to be interviewed—we are very grateful.

We believe that the trend in comic-to-film stories that is all the rage in Tinseltown will continue with the highly-anticipated releases of *The Dark Knight*, *Hellboy II: The Golden Army*, and even *Speed Racer*; plus the continued flow of high-end interactive video games will keep comic books as the "go to" intellectual property for the coming year. Meanwhile, we are still producing this price guide as well as our other books, while Bob is churning out more comic book stories for Guild Works Productions and the Comicbook Artists' Guild.

So stay steady, and we'll see you here again next year!

Iron Man Too: Orson Scott Card
By Bob Sodaro for CVA

Noted novelist Orson Scott Card is many things to many people, Readers of CVA *probably know him best as the creator/writer of Marvel's* ***Ultimate Iron Man****, and for his work with the Dable Brothers on* ***Red Prophet*** *and* ***Wyrms*** *(also for Marvel) while Science Fiction Fans know him as the Hugo and Nebula Award-winning author of* Ender's Game *and its sequel* Speaker for the Dead *(making him the only author to have won both of science fiction's top prizes in consecutive years). He has also contributed to other forms of contemporary fiction, including* Lost Boys and Treasure Box *as well as poetry and play writing. Personally, this writer "met" him some 25 years ago as a columnist for a fledgling Commodore 64 computer magazine (Ahoy!)*

Interestingly enough, Card is not only an active political writer, speaker and outspoken critic, but devout Mormon as well. While readers may find the dichotomy of an individual with devout religious views to be a noted science fiction writer as well (as did this writer), Card thinks nothing of the sort (and explains why).

Orson not only remembered us (fondly, even), but graciously took time out of his very busy schedule and submitted to our (intrusive) questions. I would like to personally thank Orson for doing so, and to apologize to him that, except for his Ahoy! column, and Ultimate Iron Man I never took the time to read any of his work. With this interview, that will change, I'm now making it a point to rectify that by picking up some of his other writings. We urge you to do likewise.

******

RJS: I suppose that the first question that I have to ask is a Christian Sci Fi writer? Who would have thought such an animal was even possible? Am I the only one who thinks this is odd? How do you get to be both?

OSC: There are more religiously-minded science fiction writers than you might think. It's true that science fiction has to be presented from an atheistic posture — that is, a transcendent God cannot be a character in the story. You can't have characters pray to the God of Abraham and get answers; you can't have angels show up in the story. The only exception to this is if you explain the supernatural beings in sci-fi terms — i.e.; God is a giant computer set up 10,000 years ago to monitor human progress; angels are (as in *Childhood's End*) also devils — aliens watching over us; that sort of thing.

This is actually liberating for believers who write science fiction. Why? Because we can now write seriously about religious, moral, spiritual, and cosmological issues without getting distracted by particular belief systems in today's real world.

The 1,000-Year Plan (Foundation)
© by Isaac Asimov published by Ace Books

We don't have God, we have a god-figure. For instance, in Isaac Asimov's original *Foundation* series, the god-figure is Hari Seldon; the people on the planet Terminus come to have deep religious faith in his prophecy of their inevitable destiny.

At the same time, Asimov also showed how religion can be faked, so on one level he was satirizing the way false religion can be used to keep an empire under control — while at the same time, he used the "real" religion — the Seldon plan — to show how faith can unite a people and give them courage and confidence in their international relations.

Then along came Asimov's "devil" — The Mule — and we had a Job-like struggle for the souls of the human race.

Now, Asimov was an atheist; I doubt he would have appreciated my typifying his fiction this way, but the impulse to have god-figures in fiction is almost irresistible — nearly everyone does it, nearly all the time. You don't have to do it on purpose. It's better if you don't, because if you plan it out, then your fiction turns into a theological essay or a religious pamphlet — so it's lousy fiction and lousy religion.

Instead, if you're a believer, you simply trust that the story that feels right and true to you will also embody, in unconscious ways, your most deeply-held beliefs. That has certainly happened with me. Whenever I openly deal with religion, I'm careful to make sure that my readers don't have to make a commitment of belief — they remain outside the faith of the characters. However unconsciously, there are elements in my stories that people have pointed out as being religious, and sometimes I have to agree they're right — but I didn't plan it. It just came up unconsciously. So that's genuine, it's part of my soul. It's not what I believe that I believe it's what I actually believe at a level so deep it doesn't occur to me it could be otherwise. So I don't have to insert it into my work deliberately, as a "message." It's just there, at the root of how I believe the universe works. In that way, everybody's faith gets into their fiction — whether they are religious or atheist.

RJS: How bad does a villain have to be to be a villain?

OSC: I'm not terribly interested in villains who are pathologically bad — serial killers, etc. They have to have volition and cleverness and a spark of human reachability to be interesting to me. Even Achilles, probably the worst villain I've ever depicted — I show the road he followed to get into the place he's in, and I still show the person he thinks he is, the self-image that allows him to live his life.

Real evil is more common than people think. Hitler, Stalin, Pol Pot — they had a spectacular scale to work their vile will. But the same degree of evil exists in many a home throughout the world, just on a smaller scale: those who torture, physically or emotionally, the most helpless people living with them. They're Hitler all over again, only without enough ambition, courage, or self-control to actually rise to power. So they rule as tyrants in their homes, or on the job, or, as criminals, on the street.

So I don't need a spectacular scale to make a villain. You can find villains in the grocery store. You can also find people who behave badly out of fear or weakness. Not villains, but still people you can't trust or rely on.

The scary thing is that I can find the full range of human emotions and desires in myself. I don't have to imagine some alien creature to discover evil. I just have to look into my own heart and see: If I didn't restrain this impulse or that one, I'd be the villain of this story. So I can see inside their heart.

That's what I do. I see villains the way they see themselves, as well as the way people outside their bodies see them. That way my readers not only have a better chance of realizing how common evil can be — they can also see it in themselves, and realize: Wow, I need to stop doing that!

RJS: Can a hero have "bad" or "villainous" traits and still be a hero?

OSC: I loathed Return of the Jedi, because after all his mass murders and individual cruelty and torture, Darth Vader was suddenly "redeemed" and depicted as the equal of Yoda and Obi-Wan — because, at the last moment, he declined to kill his own genetic offspring. Well, whoop-de-do! To me, that was not redemption, it was just his genes acting out the script all genes have: Reproduce! Protect the seed!

My heroes have doubts, fears, and even do wrong or bad things that they need to repent of or refrain from or overcome. They're human, but...the core self is, in a word, noble. It takes time to discover their nobility. But they aren't heroes unless they do something extraordinary, which is good. And it's deeply unsatisfying to read about a "hero" who did it all by accident. It makes it into a joke. A comedy of errors. Oops, I saved the world. Funny once, maybe. But not a hero. That story is only interesting if the person hates his hypocrisy or exploits it and is cynical about it but at some point later does something genuinely courageous, even if nobody knows about it. Then it's earned, and we need that, as readers.

Look, there's a reason why fictional storytelling exists in every human culture, without exception, and is valued by most people in those societies. Fiction is where we find out what good and evil are, and what behaviors are noble, what motives are worthy, and which are base and shameful. Fiction shapes a culture and teaches children how to grow up to be civilized adults — if the culture is civilized. (Barbarian societies have stories that teach their children to be barbarians, of course.)

It's how we transmit culture. That's why elitist fiction in our society is not read by the general public — it reaffirms the self-image of the intellectual elite, while despising common people. Why should the common people embrace such stories? They read the stories that show the behavior they believe is noble and good.

Any civilization that does not promulgate the story that Wilfred Owen calls "that old lie" — "Dulce et decorum est pro patrie mori" (It's noble and sweet to die for your country) — is a civilization that has decided

to die, because another group that does believe that story will come along and find no one willing to risk death to oppose them. That's when the barbarians win — when the civilized people are no longer willing to sacrifice anything but some of their money as taxes. You can't buy fierce, loyal, dependable soldiers to defend your culture against the barbarians. You can only grow them; and we grow them largely through the stories we tell them as children and young adults.

So the "bad" traits in a hero are there to make him believable, to keep him from seeming unapproachable and out of reach. But the core is the noble character that triumphs in the end — Han Solo coming back at the last minute to risk his life along with the others.

RJS: Do you perhaps like living a "bad" life vicariously through your villains, or are there types of bad behavior that you can't write about because of your beliefs? If so, why or why not?

OSC: I actually don't write much about the sins that really interest me. Why? Because I'm spending my life trying not to commit them, and the last thing I need to do is script a path into committing them. Plus, the interesting sins to me personally are not fictionally interesting. I've learned that fantasizing about doing bad things only whets your appetite for them. Much better to leave them alone.

RJS: Other than the fact that in comics you are working with illustrators who will draw the images and actions you would describe in a prose piece of fiction, are there any real differences to the way you approach storytelling when working in comics and working in prose?

OSC: Comics are like theater or film — somebody else is going to be interpreting my script. That makes it very different from writing fiction, where it's me and the reader, with no one else in between. So my scripts for comics are only plans to create a story, which someone else will perform for me. I can't control that, so I have to make the events crystal clear to the artists, and then hope they will make the story clear to the readers. But that's just what I do with plays and movie scripts as well. Comics is simply another dramatic, rather than narrative, art.

RJS: How did you come to write *Ultimate Iron Man* (and *Ultimate Iron Man 2*)?

OSC: Marvel asked me to write *Ultimate Iron Man.* I pointed out that I don't like superhero comics, and Iron Man was the most boring of all. Then they explained that the Ultimate series allowed me to reinvent the story from the beginning. So I got to come up with sci-fi reasons why the same guy would not only be a multimillionaire arms maker but also a workshop inventor and would then insist on wearing the suit himself! Those are three full time jobs...but I think I did a good job of making it real and compelling, at least to me. So what drew me was the challenge and the freedom Marvel gave me.

RJS: How did you approach *Ultimate Iron Man*?

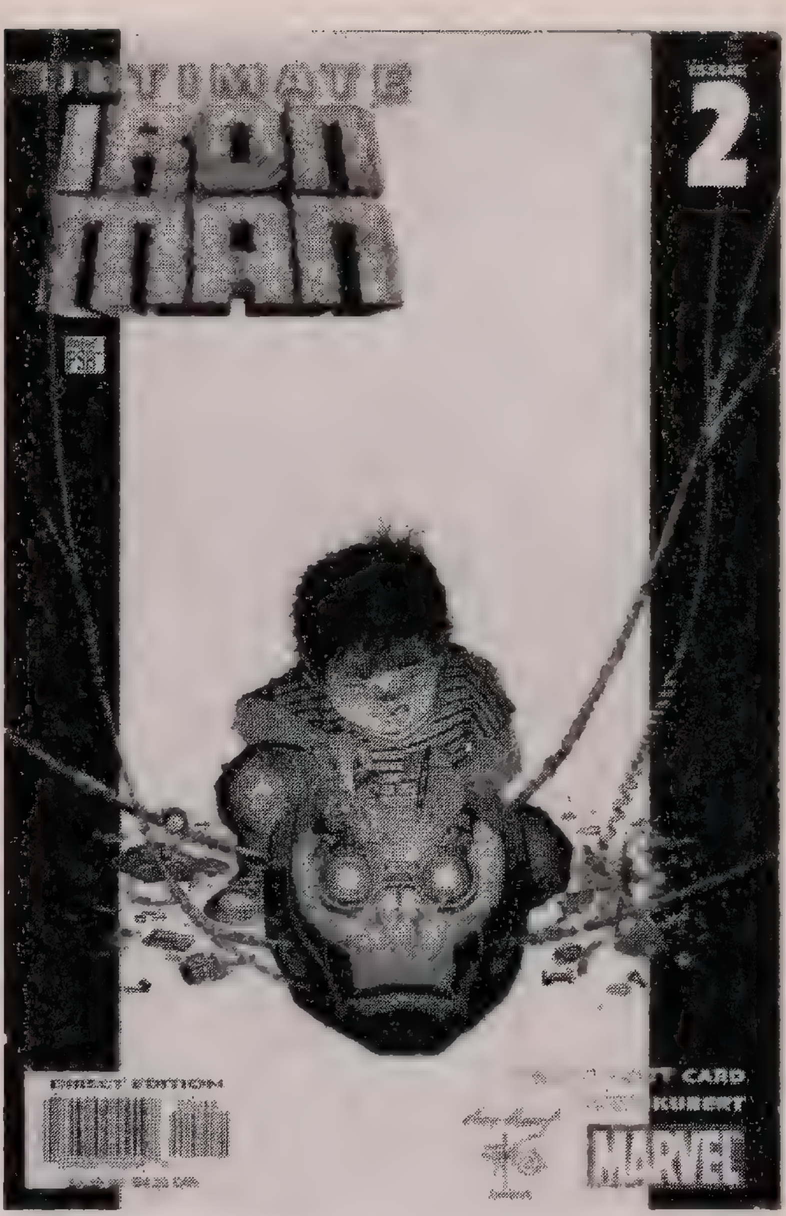
OSC: As a story of my own, with only a few rules. I had a friend who loved the Iron Man comics and told me, "Any issue where he didn't actually wear the suit felt like a loser," so I made sure that in every issue, Tony Stark wears the suit — or the equivalent — or, later, at least Rhodey wears his War Machine suit.

Somebody wears a suit, and it's important to accomplishing the mini victory that marks the end of the issue.

RJS: Were you given any specific guidelines?

OSC: Really, they didn't surround me with fences. The limits were entirely practical: 20-22 pages per issue. A rational number of frames per page, with an eye to breaking them up so they weren't six, six, six, page after page. In return, I gave as much freedom as possible to the artists, so they could bring their own creativity to the page. They have way better eyes and visual imaginations than I have, so why would I want to limit them? Everybody gave everybody else all the freedom that the form allows.

RJS: Do you think that your status as a published (and award-winning) novelist (the author of *Ender's Game*) cut you any slack in what you were allowed to do?



Ultimate Iron Man #2
© Marvel Entertainment Group

OSC: Of course. They wouldn't have invited me to do it if it weren't for *Ender's Game*, but that was also a burden: They wanted me to justify the opportunity by producing work that was as good as my best. I tried to fulfill that expectation. I did not regard *Ultimate Iron Man* as slumming — I took it very seriously. Sometimes that caused them problems, because in my fiction I don't write something until I really believe in and care about the story. That has caused delays with *Ultimate Iron Man* that they would not tolerate from their regular writers. They've given me the patience I needed to try to get it right — or at least as right as I can get it.

RJS: I know that you are doing other comic book work with Marvel, but can we expect to see any other Marvel characters (Ultimate or other) from you? (If no, then why not?)

OSC: I don't think I'll write any more comics about existing characters after the second set of five *Ultimate Iron Man* comics is completed.

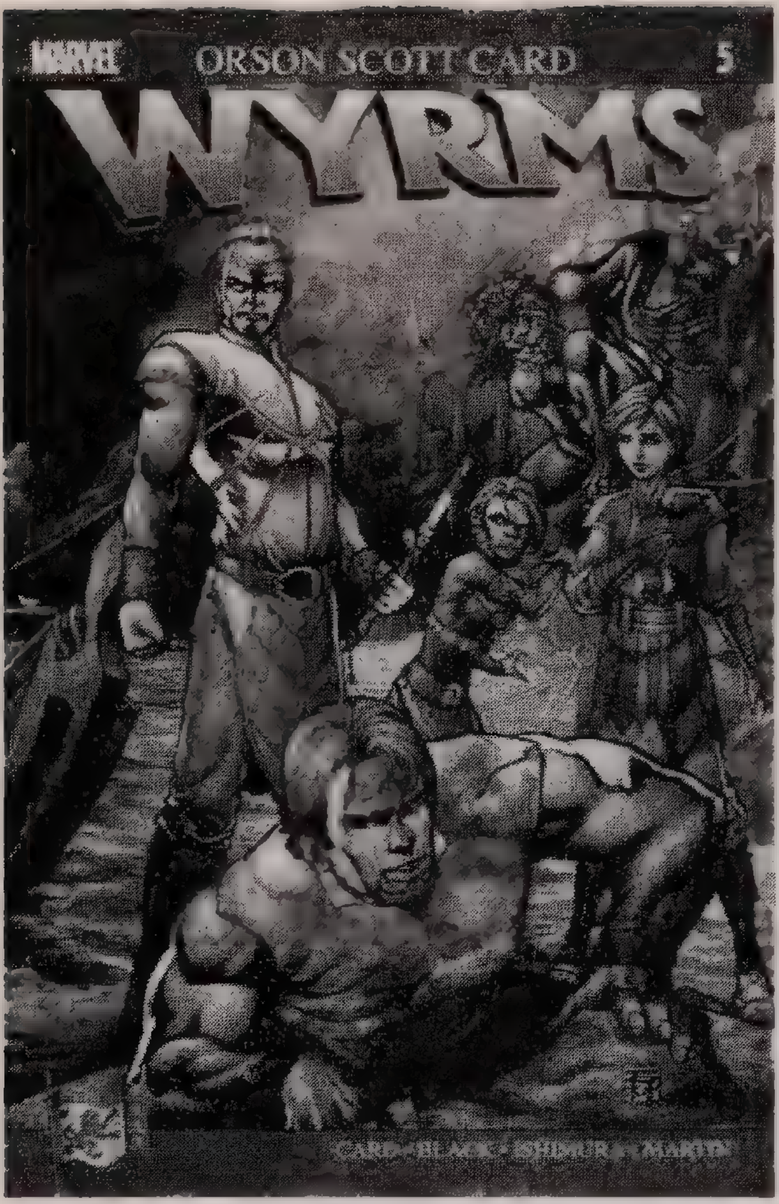
It's simply too much work for too little money. They paid me well by comic's standards, but I have a payroll to meet, and much as I have enjoyed working on this challenging project, I can't justify it, financially, for characters whose enhanced value as an intellectual property belongs to somebody else. If I write comics again, it will be for short one-shots, like the comic Shelter I did in promotion of the movie, *I Am Legend*, because it was a challenge and it was short so when it was done, it was over!

RJS: I see that you are currently working with the Dable brothers could you tell us a little about that?

OSC: The Dabel brothers approached me and we worked on *Red Prophet* and *Wyrms* as adaptations. They let me work with writers I trusted — Roland Bernard Brown on *Red Prophet* and Jake Black on *Wyrms* — and I think the results were very good, within the budgets they were working with.

RJS: If I'm reading the solicitations correctly, it appears that you are not only adapting other authors licensed concepts and characters, but creating some new material as well.

OSC: The new material I'm working on with Marvel will be in the *Ender's Game* universe.



Wyrms #5
© Marvel Entertainment Group

RJS: Any chance of any of your prose stories getting translated to the big screen or to comics?

OSC: We're also working on an *Ender's Game* movie; the project is in turnaround from Warner Bros. right now, but we have a good script and I know how to write an even better one, as soon as this writers' strike is over.

RJS: Which classic Marvel universe character would you enjoy working on, either for a long haul, or a limited series or story arc? Which (other) Ultimate character that hasn't been created, or had their own title would you like to write?

OSC: I'm not a comics fan. What I loved as a kid were three series: *Classics Illustrated*, *Scrooge McDuck*, and *Superboy*. Marvel doesn't do any of them, and my hunger for SuperBoy has been completely satisfied by the wonderful *Smallville* TV series. As for Scrooge McDuck, I just have to hit a few more bestseller lists to be able to get my room full of pennies to wallow in...

RJS: Is there a specific methodology or approach you take to your writing?

OSC: I think through motives of characters. That's the heart of everything. I also play around with details of the world — especially social details: customs, rituals, etc. All the rules of the world help create story possibilities — superimpose characters' motives on the societal rule set and you get strong stories.

RJS: That is to say how do you approach writing a novel? Is it different than the way you approach writing a comic book?

OSC: Novels are simply bigger. I can get farther into the world and spend more time and develop longer scenes and get inside the characters' heads a lot more. No long, talky scenes in comics — how long can comics readers stand balloons that crowd the faces out of the frames?

RJS: Does this approach change if you are writing your own material or adapting someone else's material to a new/different medium?

OSC: The goal in any medium is to create a fine work of art In That Medium. So Ender's Game: the Movie and Ender's Game: the Graphic Novel — they'll be true to the heart of the story, but many details will be left out or changed in order to make a great movie or a great graphic novel. The goal is to make it work for someone who never read the original novel. It has to work as an independent work of art.

RJS: Do you write at specific times of the day (get up early, stay up late?)

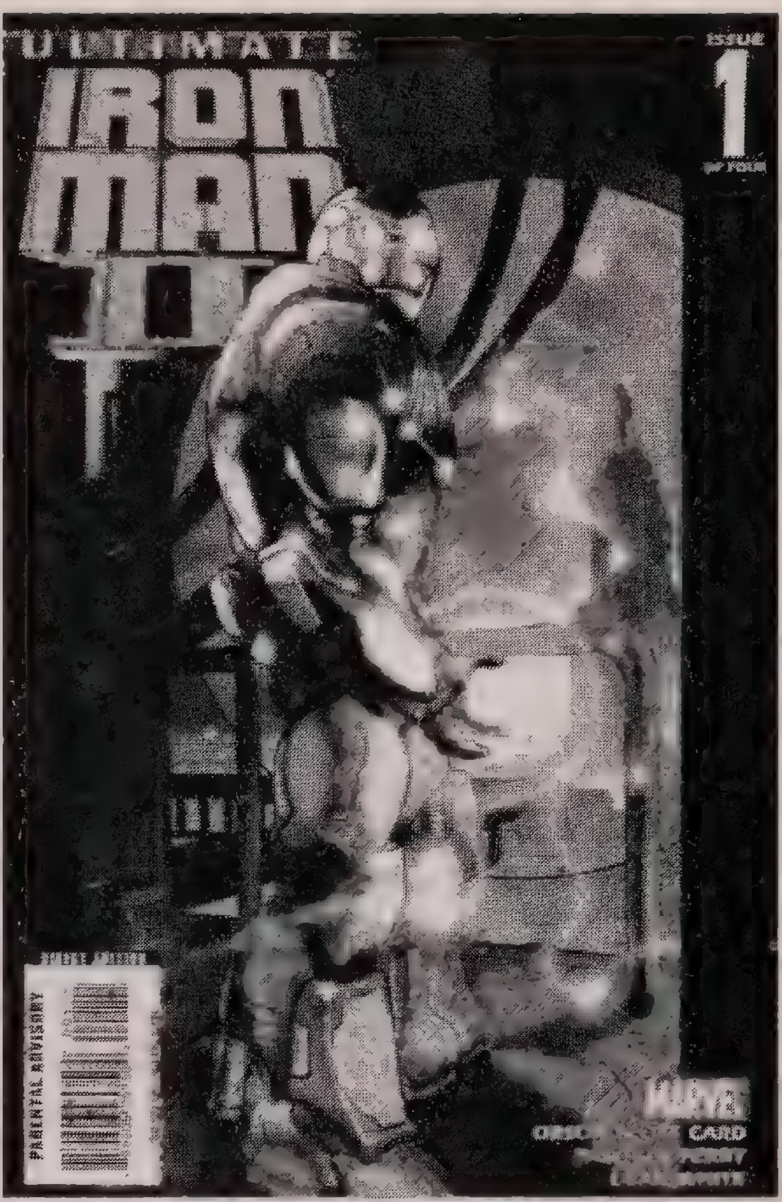
OSC: I have no routine. Whenever I accidentally get one, I inevitably (and unconsciously) subvert it. I just write in bursts until a project is finished, and then fret and get depressed until I'm ready to write the next one

RJS: As a SF author do you use a computer to write? If so, what kind and does it matter? (Yes, as your former editor on Ahoy! (a Commodore 64 magazine) I know this answer, but I'd like to hear it anyway.)

OSC: Any serious writer uses a word processor, because it makes revision instant and easy. When I wrote by hand (my plays) and on a typewriter (fiction before computers were available), there was enormous resistance to revision because it was so much work. Now it's easy to go back a few paragraphs and make changes, or globally change a name, and it all repaginates itself. Word processing, if you type quickly, as I do, allows you to approach the cadences of natural speech, which allows more music in your writing. I can create narrative and dialogue that flows in the readers' mind like speech, instead of being analyzed like Strunk-and-White-style prose.

RJS: What are your thoughts on the upcoming Iron Man movie?

OSC: The Iron Man movie draws on the original series and has nothing to do with what I wrote. Since I didn't like the original comics, I don't much care about the movie. It will either suck, like *League of Extraordinary Gentlemen* and *Fantastic Four*, or it will be good, like *X-Men* and *Spider-Man*. Maybe I'll see it and maybe I won't. I don't know yet.



Ultimate Iron Man II #1
© Marvel Entertainment Group

RJS: Do you read comics? If so, which ones, and why?

OSC: Do I read comics? Almost never. I used to read *Heavy Metal*. I don't like reading comics that are moody and incomprehensible — Dark Knight just infuriated me because you couldn't tell what was going on. It isn't good art if it doesn't communicate — comics are a storytelling medium, not a decorative one.

RJS: As a reader, what do you look for in a book, comic book or even in a movie?

OSC: Story, story, story. Characters I can care about, and storytelling that lets me know what happens and why. Within those rules, I then have to care about and believe in the events and the motives and causes of action. Very personal response, as with almost all people. I am never looking to be dazzled by a flashy artist — I find that annoying. So whenever someone says, "His style is so cool!" I avoid the book because it will probably be tedious showing off instead of good storytelling.

RJS: Do you read SF for pleasure? What authors?

OSC: I can't read SF for pleasure anymore. I'm like a tailor — all I can see are the stitches, not the suit.

RJS: Then what type of reading do you do for pleasure?

OSC: I read mysteries — Connelly, Mosley, Grafton, Beaton, McCrumb, and many others, and a few mainstream novels, historicals here and there, and lots of YA (Young Adult).

Mostly, though, I read history, science, biography, and current events. Have to fill up the brain in order for believable worldview to come out in my fiction.

GRADING GUIDE

In David Brin's science fiction–fantasy novel, *The Practice Effect*, things improve with use. You start with a crudely made tool and keep using it until it becomes a fine instrument. If our world worked that way, you could read your Golden Age comics as often as you liked and they would just get better looking each time. Unfortunately, our world does not work that way, and reading your comics (along with just about everything else) causes comics to deteriorate.

Even if you could protect your comics from external light, heat, cold, moisture, pressure and everything else, you couldn't protect them from their own paper. Most comic books were printed on pulp paper, which has a high acid content. This means that the paper slowly turns brittle with age, no matter what you do to it, short of special museum-style preservation.

Very old, well-preserved comics are coveted collector's items. In most cases, people did not save their comic books for future generations. They read them and discarded them. Comic books were considered harmless ephemera for children. When these children outgrew their comics, their parents often threw them away. If everybody kept all of their comics, comics would not be valuable because everybody would have them scattered about the house!

The value of any comic depends on scarcity, popularity and condition. Scarcity increases with age and popularity depends on the whim of the public — only condition automatically decreases with age. Newer comics are generally available in near-mint condition, so newer comics in lesser condition have little collector potential. However, older comics are scarce, so they are still collectible in less than near-mint condition, but the value is obviously less. This is a basic tenet of all collectibles. A car is more valuable with its original paint. A baseball card is more valuable if it has not been marred by bicycle spokes. Coke bottles, stamps, coins, and toys in good condition are all more valuable than their abused counterparts. Comic books are no exception.

New comic book collectors should learn how to assess the prospective value of a comic in order to protect themselves from being fleeced by unscrupulous dealers or hucksters. Yet, a majority of dealers, especially store owners, can be considered reliable judges of comic grade. Because comic retail may be their primary source of income, certain dealers are particularly adept at noticing comic book imperfections, especially in issues they intend to purchase. As such, hobbyists and collectors must understand that dealers need to make a minimum profit on their investments. Buying collectible comics entails certain risks. Therefore, dealers must scrutinize a comic to determine if the particular book will stand a chance of resale. Well-preserved comics are invariably more desirable to dealers because they are more desirable to collectors.

There are eight standard comic grades: mint, near mint, very fine, fine, very good, good, fair, and poor. Clearly, these eight grades could be split into even finer categories when haggling over an exceptionally rare or coveted Golden Age comic. In most cases, however, comic books can be evaluated using these eight standard grades. The values listed in this book are all for comics in “Near Mint” condition. The grading/price chart given at the back of this book should be used to adjust this price for comics in different grades.

For many Golden Age comic issues, there are no known mint condition examples, but most issues have a few near mint copies in the hands of collectors. Many of these come from a few “pedigree” sources like the famous mile-high collection. There are, however, some issues where no known example is in near mint condition. To be consistent, the value listed in this price guide is still for a “near mint” copy, even if no such copy exists. The grading/price chart in the back will still yield a price for the lesser grades that actually exist. And, who knows, maybe there is another treasure trove of old comics somewhere — maybe you’ll even be the one who finds it!

Mint (CGC 9.5 or above)

Finding old comics in mint condition is almost impossible because of inferior storage techniques and materials. In the early days of collecting, few people anticipated that the very boxes and bags in which they stored their comics were contributing to decay. Acid from bags, backing boards, and boxes eat away at many comics.. Mint condition comics usually fetch prices higher than price guide listings. Mint comics can sell for 120% or more of the listed price.

Mint comics are perfect comics and allow no room for imperfections. Pages and covers must be free of discoloration, wear, and wrinkles. A mint comic is one that looks like it just rolled off the press. Staples and spine must meet perfectly without cover “rollover.” The cover must be crisp, bright, and trimmed perfectly. The staples must not be rusted and the cover should not have any visible creases. The interior pages of a mint comic are equally crisp and new. A mint comic must not show any signs of age or decay. Because of the paper stock used on many older comics, acid and oxygen cause interior pages to yellow and flake.

Near Mint (CGC 9.4)

A near mint comic and a mint comic are close siblings, with their differences slight, even to an experienced eye. Most of the new comics on the shelf of the local comic shop are in near mint condition. These are comics that have been handled gingerly to preserve the original luster of the book. Near mint comics are bright, clean copies with no major or minor defects. Slight stress lines near the staples and perhaps a very minor printing defect are permissible. Corners must still be sharp and devoid of creases. Interior pages of newsprint stock should show almost no discernible yellowing. Near mint comics usually trade for 100% of the listed price, with just a small discount for slightly lower grades.

Very Fine (CGC 8.0)

A very fine comic is one that is routinely found on the shelves and back issue bins of most good direct market comic shops. This grade comic has few defects, none of them major. Stress around the staples of a very fine comic are visible but not yet radical enough to create wrinkles. Both the cover and interior pages should still be crisp and sharp, devoid of flaking and creases. Interior pages may be slightly yellowed from age.

Most high-quality older comics graded as very fine can obtain 80-90% of listed prices. More, if the comic is the highest-graded comic known to exist.

Fine (CGC 6.0)

Fine comics are often issues that may have been stored carefully under a bed or on a shelf by a meticulous collector. This grade of comic is also very desirable because it shows little wear and retains much of its original sharpness. The cover may be slightly off center from rollover. The cover retains less of its original gloss and may even possess a chip or wrinkle. The comers should be sharp but may also have a slight crease. Yellowing begins to creep into the interior pages of a comic graded as fine.

Fine comics are respectable additions to collections and sell for about 40-60% of the listed price.

Very Good (CGC 4.0)

A very good comic may have been an issue passed around or read frequently. This grade is the common condition of older books. Its cover will probably have lost some luster and may have two or three creases around the staples or edges. The corners of the book may begin to show the beginnings of minor rounding and chipping, but it is by no means a damaged or defaced comic. Comics in very good condition sell for about 30-40% of listed price.

Good (CGC 2.0)

A good comic is one that has been well read and is beginning to show its age. Although both front and back covers are still attached, a good grade comic may have a number of serious wrinkles and chips. The corners and edges of this grade comic may show clear signs of rounding and flaking. There should be no major tears in a good comic nor should any pages be clipped out or missing. Interior pages may be fairly yellowed and brittle. Good comics sell for about 15-25% of the listed price.

Fair (CGC 1.0)

A fair comic is one that has definitely seen better days and has considerably limited resale value for most collectors. This comic may be soiled and damaged on the cover and interior. Fair comics should be completely intact and may only be useful as a reading copy, or a comic to lend to friends. Fair comics sell for about 10-20% of the listed price.

Poor

Comics in poor condition are generally unsuitable for collecting or reading because they range from damaged to unrecognizable. Poor comics may have been water damaged, attacked by a small child, or worse, perhaps, gnawed on by the family pet! Interior and exterior pages may be cut apart or missing entirely. A poor comic sells for about 5-15% of the listed price.

Sniffing Out Grades

Despite everything that is mentioned about comic grading, the process remains relative to the situation. A comic that seems to be in very good condition may actually be a restored copy. A restored copy is generally considered to be in between the grade it was previous to restoration and the grade it has become. Many collectors avoid restored comics entirely.

Each collector builds his collection around what he believes is important. Some want every issue of a particular series or company. Others want every issue of a favorite artist or writer. Because of this, many collectors will purchase lower-grade comics to fill out a series or to try out a new series. Mint and near mint comics are usually much more desirable to hardcore collectors. Hobbyists and readers may find the effort and cost of collecting only high-grade comics financially prohibitive.

Getting artists or writers to autograph comics has also become a source of major dispute. Some collectors enjoy signed comics and others consider those very comics defaced! The current trends indicate that most collectors do enjoy signed comics. A signature does not usually change the grade of the comic.

As mentioned, comic grading is a subjective process that must be agreed upon by the buyer and seller. Buyers will often be quick to note minor defects in order to negotiate a better price. Sellers are sometimes selectively blind to their comic's defects.

CVA GRADING GUIDE

Grading comics is an objective art. This grading guide outlines the many conditions you should look for when purchasing comics, from the highest grade and top condition to the lowest collectible grade and condition. Your own comics will fall into one of these categories. A more complete description and our comments on comics grades can be found inside. We would like to point out, however, that no reader or advertiser is required to follow this or any other standard. All prices in Comics Values Annual are for comics in Near Mint condition. Happy collecting!

Mint: Perfect, pristine, devoid of any trace of wear or printing or handling flaws. Covers must be fully lustrous with sharply pointed corners. No color fading. Must be well centered. Many "rack" comics are not "Mint" even when new.

Near Mint: Almost perfect with virtually no wear. No significant printing flaws. Covers must be essentially lustrous with sharp corners. Spine is as tight as new. In older comics, minimal color fading is acceptable, as is slight aging of the paper. Most price guides, including CVA, quote prices in this grade.

Very Fine: Well preserved, still pleasing in appearance. Small signs of wear, most particularly around the staples. Most luster is readily visible. Corners may no longer be sharp, but are not rounded. Typical of a comic read only a few times and then properly stored.

Fine: Clean, presentable, with noticeable signs of wear. Some white may show through enamel around staples, and moderate rounding of corners. No tape or writing damage. Book still lies flat.

Very Good: A well worn reading copy with some minor damage such as creasing, small tears or cover flaking. Some discoloration may be evident, with obvious wear around the staples. Little luster remains, and some rolling of the spine may be seen when comic is laid flat on the table.

Good: A fully intact comic with very heavy wear. Tears, cover creases and flaking, and rolled spine will all be evident. No tape repairs present. Only very scarce or valuable issues are collected in this state.

The adjoining price table shows the prices for the other collectible grades which correspond to any "near mint" price given in this book.
